

LUIS GONZÁLEZ RAMÍREZ

DATE OF BIRTH 27 July 1998
RESIDENCE Torrejón de Ardoz, Madrid, Spain, 28850
EMAIL lgrjr27798@gmail.com, luigono7@ucm.es, lgonzalez@cab.inta-csic.es
ADDRESSES

LANGUAGES

	Native Spanish
	English
DATE OBTAINED	May 2016
QUALIFICATIO	B2 First, Credential ID 166ES4260276
SCORE	176
INSTITUTION	Cambridge University Press & Assessment English

EDUCATION

PERIOD	September 2011 — March 2012	
QUALIFICATIO	8th grade	
SCHOOL	SHAPE American High School	Mons, Belgium
	Awarded Honor Roll distinction, GPA 3.0–3.49, 1 st semester 2011–2012.	
PERIOD	September 2014 — May 2016	
QUALIFICATIO	Science and Technology Baccalaureate	
AVERAGE	9.47	
GRADE (OUT OF 10)		
SCHOOL	Colegio San Juan Bosco	Torrejón de Ardoz, Spain
	Biology laboratory assistant, September 2015 — April 2016.	
PERIOD	September 2017 — June 2022	
DEGREE	BSc in Physics	
AVERAGE	6.89	
GRADE (OUT OF 10)		
	Honours in Thermodynamics and External Internship	
UNIVERSITY	Complutense University of Madrid	Madrid, Spain
	Special interest in astronomical activities; member of ASAAF (<i>Asociación de Astrónomos Aficionados</i>); advanced handling of amateur telescopes.	
	Jury-awarded winner of the optics photography contest of the Faculty of Physical Sciences, academic year 2019 — 2020.	
	Optional courses taken in Astrophysics:	
	- Astrophysics, September 2019 — February 2020	
	- Observational Astronomy, September 2021 — February 2022	
	- Stellar Astrophysics, September 2021 — February 2022	
	- General Relativity and Gravitation, September 2021 — February 2022	
	- Cosmology, February 2022 — June 2022	
	- Extragalactic Astrophysics, February 2022 — June 2022	

· TORREJÓN DE ARDOZ, MADRID · SPAIN

✉ LGRJR27798@GMAIL.COM ☎ (+34) 658682829

PERIOD	September 2021 — June 2022	
LANGUAGES	Bachelor's Thesis: Inertia tensor of structures at different cosmological scales	
GRADE (OUT OF 10)	Python 8.9	
	Analysis of parameters of cosmological structures based on their inertia tensor to determine the origin and evolution of two different groups of satellite galaxies around a central galaxy in an N -body dynamical simulation.	
PERIOD	September 2022 — June 2023	
DEGREE	MSc in Astrophysics	
AVERAGE	8.63	
GRADE (OUT OF 10)		
UNIVERSITY	Complutense University of Madrid	Madrid, Spain
	Courses taken: - Stellar Atmospheres - Galaxy Formation and Evolution - Astronomical Instrumentation - Interstellar Medium - Cool Stars and Substellar Objects - Solar System and Exoplanets - Galactic Dynamics	
PERIOD	September 2022 — June 2023	
INSTITUTION	Master's Thesis: Target characterisation: Carmencita and X-rays	
LANGUAGES	CAB, CSIC–INTA	Villafranca del Castillo, Madrid, Spain
SOFTWARE	Python	
GRADE (OUT OF 10)	Aladin, TOPCAT, VizieR 9.2	
	Maintenance of Carmencita, the CARMENES data archive containing information on cool dwarf stars. In particular, updating its X-ray content with the latest eROSITA and ROSAT (2RXS) data, compiling X-ray and bolometric luminosities, and linking them to activity, kinematic parameters and, potentially, age.	
PERIOD	July 2023	
ACTIVITY	UCM Summer Course, 5–7 July	
UNIVERSITY	Complutense University of Madrid	Madrid, Spain
	Certified attendance at the course <i>Hydrogen: a key energy vector in the energy transition</i> , with a total duration of 16 hours.	
PERIOD	September 2023 — December 2023 (not completed)	
DEGREE	MSc in Space Science and Technology	
UNIVERSITY	University of Alcalá	Madrid, Spain
	First-semester courses completed in Space Astronomy, Space Weather, High-Energy Astrophysics and Solar System Exploration. Experience: one class session taught by me on the chapter on exoplanets.	
PERIOD	September 2024 — June 2025	
ACTIVITY	General seminars of the Centro de Astrobiología	
INSTITUTION	Centro de Astrobiología (CAB, CSIC–INTA)	Madrid, Spain
	Certified attendance at the CAB general seminars during the 2024/25 academic year.	

· TORREJÓN DE ARDOZ, MADRID · SPAIN

✉ LGRJR27798@GMAIL.COM ☎ (+34) 658682829

PERIOD	18–19 December 2024	
ACTIVITY	<i>Keep you uPhDated days</i> CAB–INTA 2024	
INSTITUTION	Centro de Astrobiología (CAB, CSIC–INTA)	Madrid, Spain
	Certified attendance at the <i>Keep you uPhDated days</i> CAB–INTA 2024 conference, with a total duration of 15 hours.	
PERIOD	4 June 2024	
ACTIVITY	Cybersecurity awareness through gamification	
INSTITUTION	National Cryptologic Centre (CCN)	Spain
	Certified online course successfully completed.	
PERIOD	5–8 May 2025	
ACTIVITY	IAA-CSIC Severo Ochoa School on Bayesian Statistics	
INSTITUTION	Institute of Astrophysics of Andalusia (IAA-CSIC)	Granada, Spain
	Certified attendance at the Bayesian statistics school, with a total duration of 19 hours.	
PERIOD	15–19 July 2024	
ACTIVITY	XVI Scientific Meeting of the Spanish Astronomical Society	
INSTITUTION	Spanish Astronomical Society (SEA)	Granada, Spain
	Certified attendance at the XVI Scientific Meeting of the Spanish Astronomical Society.	
PERIOD	12 May 2026	
ACTIVITY	Astrophysics today: fascination and science	
INSTITUTION	BBVA Foundation	Madrid, Spain
	Attendance at the conference delivered by Rafael Bachiller, duration: 1 hour. https://www.fbbva.es/eventos/astrofisica-hoy-fascinacion-y-ciencia/ .	

EXPERIENCE

PERIOD	February 2022 — June 2022	
INSTITUTION	INTA	Torrejón de Ardoz, Spain
POSITION	BSc intern, Payloads and Space Sciences Department, Space Radiation Laboratory	
SKILLS	EXPACS, SPENVIS and Python	
	Objective: characterisation of space radiation environments, radiation detector testing, code development for detection, and educational and outreach activities.	
PERIOD	November 2022	
INSTITUTION	Complutense University of Madrid	Madrid, Spain
POSITION	Science and Innovation Week 2022: MSc student, member of ASAAF, in collaboration with the UCM Astronomical Observatory	
SKILLS	Optical telescope operation and outreach	
	Objective: series of outreach talks for the general public on astrophysics and astronomy, and guided visits to the UCM Astronomical Observatory.	
PERIOD	February 2023 — June 2023	
INSTITUTION	CAB–ESAC, INTA–CSIC	Villafranca del Castillo, Spain
POSITION	MSc intern, Astrophysics Department, Virtual Observatory	
SKILLS	Aladin, TOPCAT, Vizier, VOSA	
	Objective: updating and redesigning practical cases for Spanish Virtual Observatory (SVO) tools for education and outreach. https://svo.cab.inta-csic.es/?page_id=148	
PERIOD	September 2023 — present	
COMPANY	AstroAfición	Madrid and Toledo, Spain
POSITION	Astronomy instructor	
SKILLS	Optical telescope operation and astronomy outreach talks	

· TORREJÓN DE ARDOZ, MADRID · SPAIN

✉ LGRJR27798@GMAIL.COM ☎ (+34) 658682829

PERIOD	January 2024 — present	
INSTITUTION	CAB–ESAC, INTA–CSIC	Villafranca del Castillo, Spain
POSITION	PhD student, Astrophysics Department	
SKILLS	Python, HTML, LaTeX, TOPCAT, VOSA	
	Objective: development of the doctoral thesis “ <i>Advanced statistical methods for stellar age determination</i> ”, using neural networks, Bayesian statistics and other techniques.	
PERIOD	9–11 April 2024	
ACTIVITY	Mentor in the 4^oESO+Empresa 2024 programme	
INSTITUTION	European Space Astronomy Centre (ESAC)	Madrid, Spain
	Participation as a mentor in the 4 ^o ESO+Empresa 2024 programme.	
PERIOD	28 May–4 June 2024	
ACTIVITY	Visiting-mode astronomical observing campaign	
TELESCOPE	Telescopio Nazionale Galileo (TNG), HARPS-N instrument	La Palma, Spain
	Astronomical observing campaign carried out in visitor mode at the Roque de los Muchachos Observatory.	
PERIOD	18 July 2024	
ACTIVITY	Oral contribution at the XVI Scientific Meeting of the SEA	
INSTITUTION	Spanish Astronomical Society (SEA)	Granada, Spain
	Certified oral contribution entitled <i>Teaching Astronomy with the Virtual Observatory</i> , presented by Luis González, Alba Aller and Enrique Solano.	
PERIOD	8–10 April 2025	
ACTIVITY	Mentor in the 4^oESO+Empresa 2025 programme	
INSTITUTION	European Space Astronomy Centre (ESAC)	Madrid, Spain
	Participation as a mentor in the 4 ^o ESO+Empresa 2025 programme.	
PERIOD	17–26 June 2025	
ACTIVITY	Visiting-mode astronomical observing campaign	
TELESCOPE	Mercator Telescope, HERMES instrument	La Palma, Spain
	Astronomical observing campaign carried out in visitor mode at the Roque de los Muchachos Observatory.	
PERIOD	29 June–3 July 2026	
ACTIVITY	Oral contribution at the European Astronomical Society Annual Meeting 2026	
CONFERENCE	EAS 2026	Lausanne, Switzerland
	Preparation of the oral contribution <i>Hierarchical Bayesian inference of ages from Lithium Depletion Boundary for stellar groups with rapid rotators</i> , presented in English by a collaborator. Authors: Luis González-Ramírez and collaborator J. Olivares (UNED).	
PERIOD	13–17 July 2026	
ACTIVITY	Poster contribution at the XVII Scientific Meeting of the SEA	
INSTITUTION	Spanish Astronomical Society (SEA)	Tarragona, Spain
	Certified presentation of a scientific poster based on the article <i>Chronos: Towards a self-consistent and absolute stellar age scale. I. A Bayesian hierarchical lithium-age model: Validation on the Pleiades cluster</i> .	

PUBLICATIONS

YEAR	2025
TYPE	Proceeding
PUBLICATION	Highlights of Spanish Astrophysics XII Luis González-Ramírez, A. Aller and E. Solano. <i>Teaching Astronomy with the Virtual Observatory</i> . In <i>Highlights of Spanish Astrophysics XII, Proceedings of the XVI Scientific Meeting of the Spanish Astronomical Society</i> , vol. 1, no. 44, 6 pages. https://ui.adsabs.harvard.edu/abs/2025hsa...conf...44G/abstract
YEAR	2026
TYPE	Scientific article in a Q1 journal
JOURNAL	Astronomy & Astrophysics Luis González-Ramírez, David Barrado, Javier Olivares, Ángel Berihuete, Luis M. Sarro and Francisco J. Palmero. <i>Chronos: Towards a self-consistent and absolute stellar age scale. I. A Bayesian hierarchical lithium-age model: Validation on the Pleiades cluster</i> . <i>Astronomy & Astrophysics</i> , vol. 710, A407, Section 5: Galactic structure, stellar clusters and populations, 21 pages. https://www.aanda.org/articles/aa/full_html/2026/06/aa59708-26/aa59708-26.html

PROJECTS

PERIOD	July 2022 — present
LANGUAGES	Statistical Physics Manual LaTeX, Matlab Writing of a manual on topics in Statistical Physics, based on the corresponding BSc course, 106 pages, still in progress.
PERIOD	July 2022 — present
LANGUAGES	Astrophysics Manual LaTeX, Matlab, Python Writing of an introductory manual on general Astrophysics, 328 pages, still in progress.

SKILLS AND ADDITIONAL INFORMATION

Programming languages	Python (very high), Matlab (high), R (intermediate)
Software	Microsoft Excel (high), Microsoft PowerPoint (very high) Microsoft Word (high), Adobe Photoshop (intermediate), SciDavis (high), LaTeX (very high), Aladin Sky Atlas (high), Tool for OPerations on Catalogues And Tables, TOPCAT (high)
Hardware	Oscilloscope (high), optical telescopes (high), spectrograph (high)
Skills	Data analysis, laboratory techniques, problem solving, astronomical observation and orientation
Driving licence B	passed (2023)
Hobbies and interests	Astrophotography, astronomy, drawing and artistic creation
